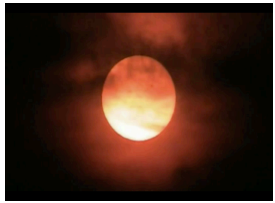
Acrobat Forum – rm.callAS("multimedia_seek"), on Local File compiled-in, v.1



Run a Play script here

Joel suggests, Insert via URL, then Seek to timepoint;
BR simply Plays it
rm.callAS("multimedia_play");
on
https://archive.org/download/CEP318/
CEP318_512kb.mp4

Run a Play script here

BR imitates Joel, on a different clip, with
rm.callAS("multimedia_play");
on
http://brjpdf.net/
SayCheese-WebOp.mp4

Run a 'Seek to 4 sec.' script here

BR imitates Joel, and D. P. Story, with variant of
{ rm.callAS("multimedia_seek", (seconds); }
on local/contained/compiled-in file
Result: Seeks to next-previous scene-cut point [0:00].

Run a 'Seek to 12 sec.' script here

BR imitates Joel, and D. P. Story, with variant of
{ rm.callAS("multimedia_seek", (seconds); }
on local/contained/compiled-in file
Result: Seeks to next-previous scene-cut point [~0:08].
