Use the chart below to plan how to group your room pools in MarRFP

Disclaimer: This document is intended to be used by pre-opening/new hotels when determining their initial MarRFP Standards screen set-up. Room pools will lock into place in MarRFP, and once accounts begin pricing, room pool changes are only permitted on a case-by-case basis. Please strategize and commit to which room pools you will offer for MarRFP centrally priced accounts.

Tip: If you have room pools that are set at the same pricepoint, they should be combined into the same room pool group.

Tip! Group your standard inventory and your lowest price point in Group 1. Both room pools assigned to Group 1 will be priced the same.	Tip! Group 2 can be used for Premium Room Types. Both room pools assigned to Group 2 will be priced the same.	Tip! Group 3 can be used for Premium Room Types. GPP will not load for this group. Both room pools assigned to Group 3 will be priced the same.

GPP: By default, GPP rates will be built for all defined room pools in Room Pool Group 1 only. Hotels can opt-in to have GPP rates loaded for Room Pool Group 2 by selecting the "Enhanced Logic- All Room Pool Group 1 and 2 defined room pools" on the RFP Standards Screen in MarRFP. The decision to offer GPP to either 1 or 2 Room Pool Groups will apply to ALL Centrally Priced GPP Accounts. GPP rates will not load for Room Pool Group 3.

X- Do you want GPP rates loaded for Room Pool Group 1 only or both Room Pool Groups 1 & 2?
