Pump Size:

Date: 06/10/2021

Risk Assessment risk ratings: Minimal - Medium - High

Operator Pre-Work Check	Yes	No	Rating	Operator Initial
Has a pre-work visual check of Boom been completed?				
Is the pump located in the safest position for the job?				
Has the area been checked for power line obstructions?				
Have traffic hazards been eliminated?				
Are the outriggers located on solid ground surface?				
Do employees have appropriate PPE?				
Is ventilation adequate to limit exhaust fume hazards?				

If no has been answered to any of these questions, then consultation with site supervisor for further risk is required.
