

Breaking Biosimilar Barriers

With the emergence of adalimumab biosimilars this summer and the increased use of infliximab biosimilars, we are introducing the **Breaking Biosimilars Barriers website**.

The website is a **free resource to educate healthcare professionals and patients on up-to-date biosimilar information**. The educational materials on the website (i.e., videos, presentations, information sheets, etc.) are accessible to all learners.

Learn about:

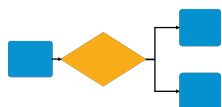

Understanding Biosimilars

Safety, Efficacy, & Cost Savings with Infliximab and Adalimumab Biosimilars

Nocebo Effect

Strategies to Increase Biosimilar Utilization

Available Biosimilars (Infliximab and Adalimumab) & the Biosimilar Pipeline

Be entered in a drawing for a debit card!

Scan the QR code to the left to take a brief (less than 5 minutes) research survey before viewing the website. A post-survey will follow by email in approximately one month. Complete both surveys and provide your email to be entered in the drawing. Participation in this research is voluntary, and the decision whether to participate in the research will not affect employment.
