

LATO font issue in all Adobe products

Font weight - normal

Notice how the lowercase “t” merges into the lowercase “i” and lowercase “f” merges into the lowercase “i” in Adobe products:

This is how LATO looks in Microsoft word:

Notice how all lowercase “i” and “t” & “f” and “i” do not merge and are separate.

Fluffing Batting

This is how LATO looks like on Google:
Notice how all lowercase “i” and “t” do not merge and are separate.
However, lower case “f” and “i” do merge.
