

A full range of creative marketing materials

To complement our photography, video and 360° tours, we offer a wide range of marketing materials to sell your new homes development.

These include Site Branding to give your project a unique identity; Websites which show your development off before it's even out of the ground and give prospective purchasers the chance to register their interest; design and print of Site Hoardings which keep selling 24/7, and Social Media and Video Campaigns to keep your name in front of the right people.

Beautiful brochures

Stylish brochures are still a vital part of the marketing for a development of new homes or for promoting your company.

Our stunning photography combines with elegant layout, top quality CGIs, well written text and creatively treated floor plans to produce brochures that stand out and work hard for you.

We work with high quality digital and traditional printers to produce attractive, polished brochures; we also supply online and electronic versions if required.

What our clients say...

Leon was extremely professional and really worked hard to tease out the very best images of my property. Would thoroughly recommend. Thanks again for a terrific job. ★★★★★

Toby and Natalie were professional, courteous and efficient. They took time to deliver an excellent portfolio of still and 360° photos. I'd be happy to recommend CJPM. ★★★★★

Personable, accommodating and professional. Your photography is exceptional. We were delighted with the pictures and video of our house. They were key in selling our property. I cannot recommend you highly enough. ★★★★★

The complete marketing solution
for the property sector

Change your **property marketing** for good

CJ Property Marketing offers a wide range of property marketing services, leaving you to concentrate on more important things. We do everything except actually sell the homes for you!

Beautiful photography and 4K video, a complete floor plan and EPC service, elegant new homes brochures, top quality CGI images, Matterport 360° virtual tours and much more.

We cover all the bases, so you can rely on us to deliver the right solution, whatever your property marketing needs. Find out more at cjpropertymarketing.com or call us on 0800 773 4828.

Matterport 360° property tours
With a 3D virtual tour, prospective leads can do their own walkthrough of your properties from anywhere, anytime, generating higher engagement and interest. Offer the most transparent, informational, and immersive customer experience to today's home sellers and homebuyers.

Aerial drone photography
Our spectacular aerial photography is achieved with a high-quality professional standard drone, allowing us to perfectly capture a property's key features from a height of up to 400 feet. This allows us to photograph larger properties or farms within their landscape, which showcases them in the best possible way. We are fully approved by the CAA, with all the relevant qualifications and insurances in place.

Property photography
The images we produce are more than just photographs, they are creative portraits which really capture the character of the property.
Our experienced, professional team uses the latest in digital cameras, specialist lenses and creative lighting; combined with their natural flair and expertise, this allows them to create eye-catching imagery for any style of property and a range of clients including Developers and Estate Agents.

CGI mockups
Our top quality computer generated images allow you to present off-plan properties to prospective purchasers with the confidence that they are a realistic representation of the final scheme, even before work has started.
We produce exteriors and interiors with great skill in order to give them a realistic, lifelike quality. We can also add CGI furnishings to photographs to save the cost of dressing a property. CGIs have many uses, including interior design work and planning applications.

Creative 4K videos
Capture the imagination and engage potential buyers with creatively edited professional property videos. Delivered in stunning 4K and suitable for use across all social media platforms in landscape and vertical formats.
Increase your brand awareness by personally presenting the property in the video. We offer a wide variety of styles to suit the property and budget.
