# Section 1 - Introduction

This directory provides a list of Kaiser Permanente's network providers.

## Your Primary Care Provider

You may choose one of our network providers listed in this directory to be your **Primary Care Provider** (PCP). The term "PCP" will be used throughout this directory. Generally, you must get your health care services from your PCP.

Your PCP meets state standards and is trained to give you primary medical care. He or she will usually practice general medicine, also called internal medicine or family practice. Women may also choose specialists in obstetrics-gynecology whom the Medical Group designates as Primary Care Providers.

Your PCP will provide most of your care. If you need a specialist, your PCP will help you choose a doctor in that field and work with him or her as part of your health care team.

You can choose your PCP from any of our available primary care network providers. Once you make your choice, it is effective right away. If you wish, you can change your PCP for any reason.

## Choosing or changing your doctor

We believe that an important part of your total health is building a trusted relationship with your primary care doctor. He or she is your supporter for your health needs and goals, helping you with everything from preventive care exams and advice for healthier living to treating you when you're sick.

Whether you're new to Kaiser Permanente or a longtime member looking for a change, choosing a personal doctor to coordinate your care is easy. You can learn about each doctor's certifications, specialties, languages spoken,

interests, and more on [kp.org/finddoctors](https://kp.org/finddoctors) to help you find the right fit for you.

If you want to make a switch, you can change your doctor at any time and for any reason.

## A doctor for your unique needs

You can choose a personal doctor from one of the departments listed next.

- Adult or Internal Medicine (Internists)
- Family Medicine (Family practitioners)
- Obstetrics-Gynecology (Ob-Gyn) This department provides comprehensive gynecologic and obstetric care. Women 18 to 64 may choose an ob-gyn as well as a personal physician. We encourage sexually active teenage girls to also choose an ob-gyn.

## How to choose or change your doctor

### Online

Search our directory for primary care practitioners who are accepting new patients. Then browse their profiles to find the right doctor for you. Follow these steps:

1. Go to [kp.org/finddoctors](https://kp.org/finddoctors)
2. Choose your area.
3. Narrow your search by city, doctor name, etc.
4. Click "Search."
5. Read about the doctors and click "Select me" when you find a good match that is accepting new patients.

## Phone

Call our Member Services Department at [{Regional Member Service Phone}](#), [{Regional Member Service Phone Hours}](#). We'll talk to you about your needs and help you make your choice. For TTY for the Deaf, hard of hearing, or speech impaired, call 711. Your family is free to choose different doctors at different locations.

## Getting Covered Care

You must use network providers except in emergency or urgent care situations or for out-of-area renal dialysis or other services we authorize in advance. If you obtain routine care from out-of-network providers, neither Medicare nor Kaiser Permanente will be responsible for the costs. The network providers listed in this directory have agreed to provide you with your health care services. You may go to any of our network providers listed in this directory; however, some services may require a referral. If you have been going to one network provider, you are not required to continue to go to that same provider. In some cases, you may get covered services from non-network providers.

To see a specialist, it is recommended that you talk to your PCP first. You do not need a referral to receive specialty care from most network providers. You may self-refer (schedule an appointment without a physician referral) for consultation or routine visits to most network and Kaiser Permanente specialists. A self-referral covers routine office visits and office-based services. You will still need a physician's referral and written authorization from Kaiser Permanente if you need additional services not provided in the doctor's office, such as surgery, MRI, CAT scan, colonoscopy, or hospital admissions. Consult this Directory for department listings and telephone numbers at the various medical offices or to get the most-up-to-date information, call our Member

Services Department at [{Regional Member Service Phone}](#) (TTY 711), [{Regional Member Service Phone Hours}](#)

## Members with Medicare Explorer

Members with the Medicare Explorer Benefit (please check your Evidence of Coverage or call [{Regional Member Service Phone}](#) (TTY 711) to see if you have the Medicare Explorer Benefit): You have an annual allowance for limited routine medical services and continued care from out-of-network/non-contracted providers outside any Kaiser Permanente service area.

For the best experience, see any provider that accepts Medicare. You do not need a referral or a pre-authorization for covered services. To find a provider that accepts Medicare, visit [medicare.gov](#). Coverage is limited to within the United States and its territories.

Out-of-network/non-contracted providers are not required to treat Kaiser Permanente members, except in emergency situations. Please call our customer service number or see your Evidence of Coverage for more information, including that cost sharing that applies to out-of-network services.

## Bills from out-of-network providers

If you receive a bill from an out-of-network provider for covered services and they ask you to pay for services at the time of service, it's best to ask an out-of-network provider to bill us first. If you receive a bill from an out-of-network provider, you should not pay the bill. Send it to our Claims Department and they will let you know how much you have to pay.

[{Claims Address}](#)

## Emergency and urgent care

If you have an emergency medical condition, call 911 or go to the nearest hospital. When you have an emergency medical condition, we cover emergency care anywhere in the world.

For ease and continuity of care, we encourage you to go to a Plan hospital Emergency Department if you are inside our service area, but only if it is reasonable to do so, considering your condition or symptoms.

If you have an emergency, we will talk with the doctors who are giving you emergency care to help manage and follow up on your care. The doctors who are giving you emergency care will decide when your condition is stable, and the medical emergency is over.

After the emergency is over, you are entitled to follow-up care to be sure your condition continues to be stable. Your follow-up care will be covered by our Plan. If your emergency care is provided by out-of-network providers, we will try to arrange for network providers to take over your care as soon as your medical condition and the circumstances allow. It is very important that your out-of-network provider call us to get authorization for post-stabilization care before you receive the care from the out-of-network provider. You will only be held financially liable if you are notified by the out-of-network provider or us about your potential liability.

You must use network providers except in emergency or urgent care situations, or for out-of-area renal dialysis or other services. If you obtain routine care from out-of-network providers, neither Medicare nor Kaiser Permanente will be responsible for the costs.
