

The slashes in the folder name are what the message is referring to try 2021-01-30.

The screenshot shows a Windows File Explorer window with the address bar set to 'This PC > SanDisk 960 SSD'. The left sidebar shows the navigation pane with 'SanDisk 960 SSD (G:)' selected. The main pane displays a list of folders: '15 - BKB - Southeast at LCCS', '29 - Moon', and '30'. An error dialog box is overlaid on the window, displaying the message: 'Location is not available' and 'G:\2021\01\30 is not accessible. The file or directory is corrupted and unreadable.' with an 'OK' button.

Folder Name	Date modified
15 - BKB - Southeast at LCCS	2/1/2021 10:09 PM
29 - Moon	2/23/2021 5:00 AM
30	2/23/2021 5:00 AM
