

ISOLATE IRREGULAR-SHAPED GRAPHIC IMAGE FOR TEXT WRAPPING

- Open image in PS Elements.
- Save as Photoshop file.
- Unlock image by clicking on tiny padlock/checkered icon in image layer to replace it with **Layer 0**.
- Use Magic Wand with three stars on tip, drag around desired image to get “marching ants.”
- From top Menu, choose **Select > Inverse**.
- From top Menu, choose **Edit > Cut**. Checkered pattern shows up isolating desired image.
- Click and hold down **cmd key** while clicking on **Layer 0** in the Layer panel box. *Don't click on the checkered pattern image icon in the layer panel box.*
- From top Menu, choose **Image > Crop**.
- Click on **Green Check Mark** under image.
- Re-save as a Photoshop image and close file.
- Place the newly doctored image into InDesign document.
- Keep image selected in InDesign document.
- Set Text Wrap settings:
 - Select the **third-from-left** wrap icon option.
 - Set distance between image and wrapped text.
 - Set Wrap Options:
 - **Both Right & Left Sides**
 - Set Contour Options:
 - Type: **Alpha Channel**
 - Alpha: **Transparency**
